

Buffalo

BIG NEWS

Exciting News from Visit Buffalo Niagara

To our valued community,

We're thrilled to announce Revitalize Buffalo, our new partnership with Western New York Environmental Alliance. This partnership will help protect Buffalo's environment through leadership and collaboration. Together, we are taking the steps to preserve and restore the environment that makes Buffalo the special city it is today.

By launching this partnership we are investing in cleaner parks, enhancing public spaces and supporting outdoor adventure. We will utilize Western New York Environmental Alliance's environmental expertise to restore areas, reduce waste and develop eco-friendly tourism. A portion of our funding will go directly to local sustainability projects and improvements.

With over 16 million visitors each year participating in Buffalo's many outdoor attractions, Buffalo's environment is central to our community's identity. This partnership emphasizes our commitment to sustainability in the Buffalo Niagara region, keeping the city vibrant and healthy.
